

【 School Notices: A Letter to Makopanians (Excerpt) 】
 ǁ For the reference of Native English-Speaking students & parents ǁ

Message from the Principal

To learn to serve, to be active in other learning experiences, to have a good personality and to strive for excellence are the essence of our education. They complement one another so that our students can strike a balance in their personal growth.

We are glad that students in our school perform well. They all work hard so as to keep on studying further in university. They perform well in uniform team training and group activities. Students are self-disciplined and they behave well both inside and outside school.

However, students should be reminded to use electronic gadgets within limits especially the mobile phone. There are only six years of secondary school life. Students should not be addicted to using computers or mobile phones, or they may ruin their learning and/or time in reading books and joining group activities out of school. Parents and the school shall cooperate together and advise students if there is a need.

Latest Notices (Excerpt):
